PROFESSIONAL SUMMARY

Analytical Computer Science undergraduate focused on full-stack software development and data architectures. Competent in building responsive web structures and backend APIs utilizing the MERN stack and Python. Recognized for engineering feasibility and design methodology through hackathon and Google-partnered project placement. Seeking an entry-level Software Developer or Full Stack Internship to contribute to production environments.

TECHNICAL SKILLS

Languages: Python, JavaScript (ES6+), HTML5, CSS3
Frameworks/Libs: React.js, Node.js, Express.js, Streamlit, Tailwind CSS
Databases & Tools: MongoDB, Git, GitHub, Postman, RESTful APIs, Figma

EDUCATION

Dadi Institute of Engineering and Technology <i>Bachelor of Technology in Computer Science and Engineering</i> CGPA: 8.37 / 10.0	Visakhapatnam, India 2023 – 2027
Narayana Junior College <i>Board of Intermediate Education (MPC)</i> Aggregate Score: 86.5%	Visakhapatnam, India 2021 – 2023
A.M.A. Adinarayana English Medium School <i>Secondary School Certificate (SSC)</i> Aggregate Score: 97.0%	Visakhapatnam, India 2020 – 2021

TECHNICAL PROJECTS

ChatterSphere – Full Stack Social Media Platform (MERN) • Architected a Twitter-style web app featuring dynamic user interfaces and asynchronous state management. • Engineered secure session management and user authentication pipelines via JSON Web Tokens (JWT). • Designed clean RESTful CRUD routes, validating payload data structures comprehensively using Postman. • Optimized data routing and collection schemas in MongoDB to ensure efficient query retrieval.	Node.js, Express, React, MongoDB, JWT
WhatsApp Chat Analyzer – Analytical Application • Developed text-parsing routines to extract, cleanse, and structure unstructured message archives. • Utilized Pandas dataframes to calculate temporal distributions, frequency indexes, and participant trends. • Built an interactive data reporting dashboard with Streamlit, implementing Seaborn analytical plots.	Python, Pandas, Streamlit, Seaborn

ACHIEVEMENTS

- **Winner** – Career Glow Up Night: Pitch Night Edition by Google (Awarded for technical feasibility and design).
- **Winner** – Inter-College Hackathon Competition (Collaborated as a core developer to deploy a project under time constraints).

CERTIFICATIONS

- **The Joy of Computing using Python** – National Programme on Technology Enhanced Learning (NPTEL)
- **Full Stack Developer Certification** – HackCulprit (Immersive 45-Day Boot Camp)

DECLARATION

I hereby declare that all the details provided above are true and accurate to the best of my knowledge.
